## HUBER Solutions for Stormwater Tanks

We offer two HUBER screens for storm tank overflows: Our [HUBER Storm Screen ROTAMAT® RoK1](#) is installed on the rear side of overflow weirs, while our inverted upward flow storm screen [HUBER Storm Screen ROTAMAT® RoK2](#) is installed on their front side. Both screens are provided with semi-circular perforated plates that are cleaned with screws and brushes. We also supply measuring weirs for Flow Monitoring and special flow restrictors and gates for Flow Control.

As further equipment for storm tanks we also supply various [stainless steel components](#), such as Ladders, Step Irons, Guardrails and Access Aids.

### Systems concept
